Box Dimension：49.5×37.5×27.5(cm)
Package (set/carton)：10set/Carton

Faceplate PlusTM

The large faceplate isn't large enough for more information. This second plate makes up for this. It posts the kind remind to guests, as well as saves the space of the table in room.

EZ Message LightTM

"MWL with message retrieval function": Traditional voice mail service is very troublesome. Guest doesn't know how to use when MWL flashes. While our new MWL adopts patented technology of "light and key in one", guest touches and retrieves message when the red MWL flashes, very convenient, simple and quick.

Guest Service KeysTM

Traditionally，people usually adopt the large capacitor to store the one-touch programmed number, but it's easy to lose the stored numbers after a longer time. Bittel new hotel guestroom phone adopts E2PROM combining software "One-Touch" memory programmed technology, the stored numbers are just like the numbers stored in the computer hard disk, never lose, with the powerful reliability. It's really the permanent memory keys.
