Manually Store(✓) Hand-held Cloner R.P.(✓) Master Cloner on line(✓)
Box Dimension: 47 × 42 × 29(cm)
Package (set/carton): 10set/Carton

EZ Message Light™

"MWL with message retrieval function": Traditional voice mail service is very troublesome. Guest doesn't know how to use when MWL flashes. While our new MWL adopts patented technology of "light and key in one", guest touches and retrieves message when the red MWL flashes, very convenient, simple and quick.

Guest Service Keys™

Traditionally, people usually adopt the large capacitor to store the one-touch programmed number, but it's easy to lose the stored numbers after a longer time. Bittel new hotel guestroom phone adopts E2PROM combining software "One-Touch" memory programmed technology, the stored numbers are just like the numbers stored in the computer hard disk, never lose, with the powerful reliability. It's really the permanent memory keys.
